

To make a graph

```
ggplot(data = survey) +  
  geom_points(mapping = aes(x=disp, y=mpg))
```

To make a graph

1. Pick a **data** set

```
ggplot(data = <DATA>) +  
  <GEOM_FUNCTION>(mapping = aes(<MAPPINGS>))
```

2. Choose a **geom**
to display cases

3. **Map** aesthetic
properties to
variables
